

## Captain Dave Radeschi

Captain Dave has his Masters Captain's License with the sailing and towing endorsement. He is certified to teach ASA 101 through ASA 105. In addition to being a sailing instructor, he also works with US Captains Training teaching and testing students who are getting their captain's license.

In 1999 he attended the Landing School of Boatbuilding and Design, then went on to work as an interior yacht carpenter on the Chesapeake Bay and in Seattle.

Dave started sailing Sunfish sailboats in 1993. Over the years he has enjoyed sailing and owning various small boats, building his own boat and now spends his time sailing his Sea Sprite 28 on the Chesapeake Bay and along the coast.

Dave is excited to share his passion for sailing with anyone interested in learning more about sailing.
